

How To Access, Install And Set Up LogMeIn

Step 1 – Log In

Go to <https://secure.logmein.com/products/free/mac/> or <https://72.5.76.193/products/free/mac/> to open the login page.

Log in with Email and Password details provided to you by PLANet Systems Group support and Click on 'Log Me In' button.

Step 2 – Add Your Computer

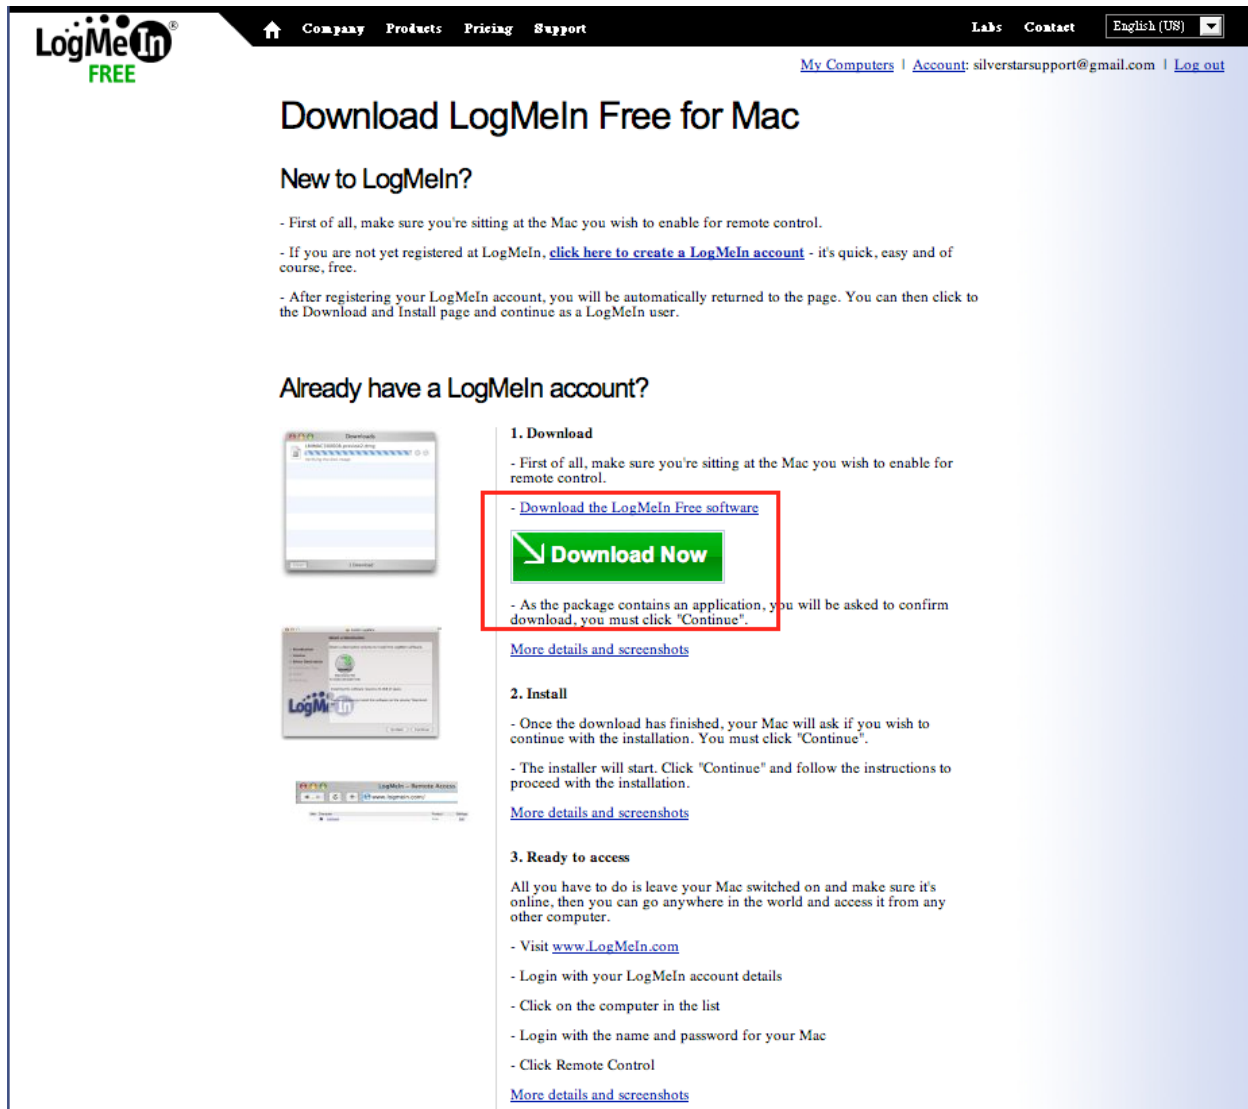

After logging in you will be brought to the following screen:

The screenshot shows the LogMeIn user interface. At the top, there is a navigation bar with links for 'Company', 'Products', 'Pricing', 'Support', 'Labs', and 'Contact'. The user is logged in as 'Account: silverstarsupport@gmail.com' and can 'Log out'. The main heading is 'My Computers', with options for 'Simple View' and 'Advanced View'. A central yellow box asks, 'Is this the computer you want to access remotely? If yes, click Add Computer.' Below this, it states, 'This will download the LogMeIn software. After installation, this computer will be listed on your My Computers page and be accessible via www.LogMeIn.com.' A red box highlights the 'Add Computer' link, which is accompanied by a yellow arrow icon. The left sidebar contains sections for 'Buy Subscriptions' (LogMeIn Pro, LogMeIn IT Reach, LogMeIn Backup), 'LogMeIn Add-Ons' (LogMeIn Ignition), and 'Resources' (Getting Started, User Forums). The bottom right corner provides contact information: Support: 1-800-993-1790, Sales: 1-888-246-1556. The footer includes the copyright notice: Copyright © 2003-2008 LogMeIn, Inc. All rights reserved. [Legal Info](#).

Click 'Add Computer' link

Step 3 - Download

Click on 'Download Now' and follow the instructions

Download LogMeIn Free for Mac

New to LogMeIn?

- First of all, make sure you're sitting at the Mac you wish to enable for remote control.
- If you are not yet registered at LogMeIn, [click here to create a LogMeIn account](#) - it's quick, easy and of course, free.
- After registering your LogMeIn account, you will be automatically returned to the page. You can then click to the Download and Install page and continue as a LogMeIn user.

Already have a LogMeIn account?

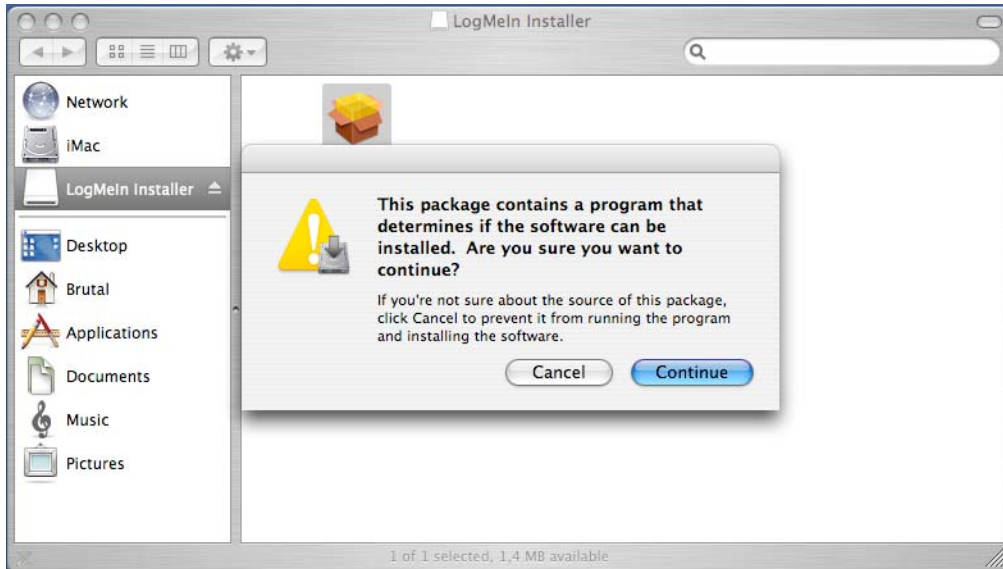

- 1. Download**
 - First of all, make sure you're sitting at the Mac you wish to enable for remote control.
 - [Download the LogMeIn Free software](#)
 - 
 - As the package contains an application, you will be asked to confirm download, you must click "Continue".
 - [More details and screenshots](#)
- 2. Install**
 - Once the download has finished, your Mac will ask if you wish to continue with the installation. You must click "Continue".
 - The installer will start. Click "Continue" and follow the instructions to proceed with the installation.
 - [More details and screenshots](#)
- 3. Ready to access**

All you have to do is leave your Mac switched on and make sure it's online, then you can go anywhere in the world and access it from any other computer.

 - Visit www.LogMeIn.com
 - Login with your LogMeIn account details
 - Click on the computer in the list
 - Login with the name and password for your Mac
 - Click Remote Control
 - [More details and screenshots](#)

Step 4 – Installation

As the package contains an application, you will be asked to confirm download, you must click "Continue".

The installer will start. Click "Continue" and follow the instructions to proceed with the installation.

The terms and conditions screen will display. You must click "Continue" and then "Agree".

The installer will now ask for **your LogMeIn account details (not your Mac computer user account)**. These are needed so the LogMeIn software on your Mac computer can be linked with your LogMeIn account and be reached from anywhere.

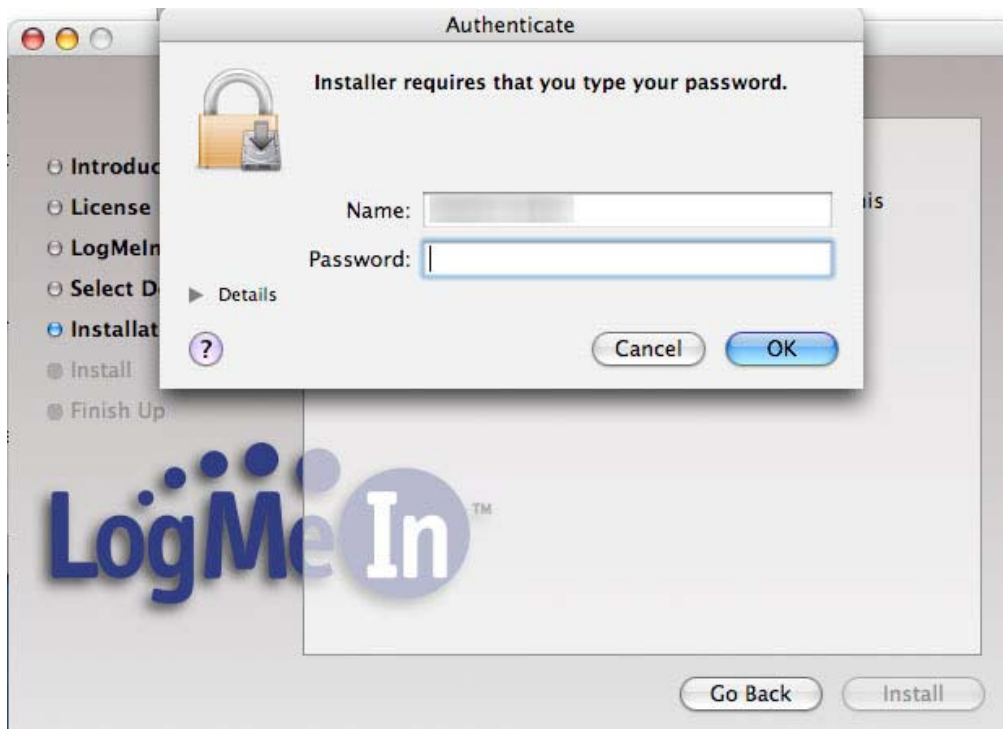

You must enter **the email address you used to register at www.LogMeIn.com** and the **password you chose for your LogMeIn account**, then click "Continue".

If your LogMeIn account contains more than one profile, then you must select it on the next screen.

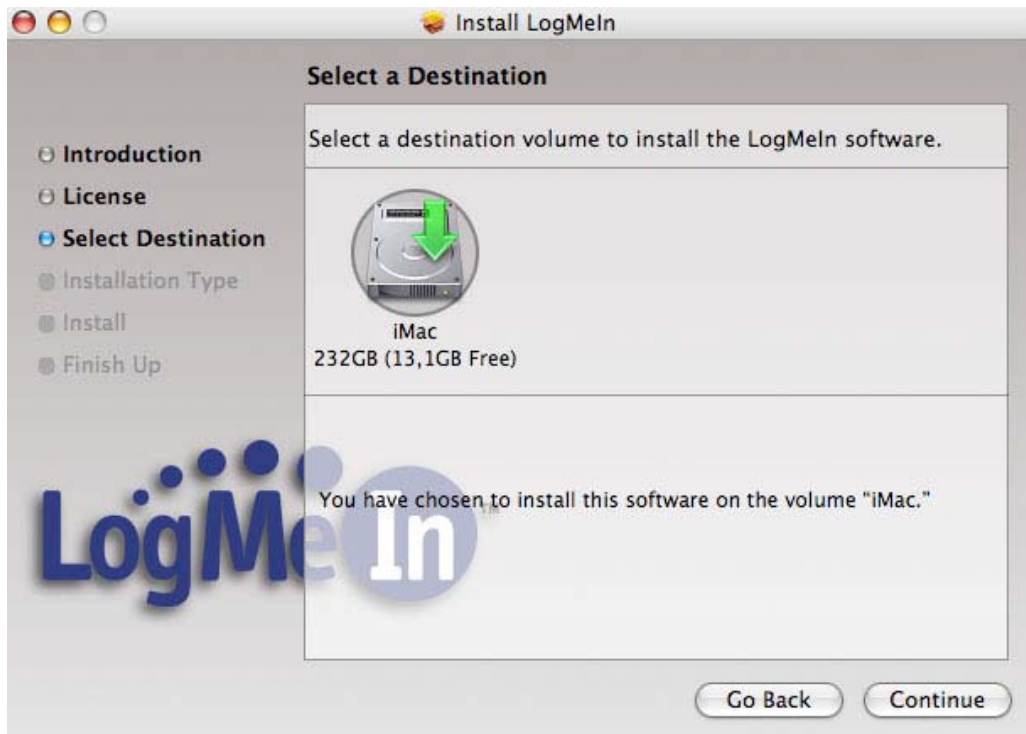

The installer will prompt you for a computer name. This will be used to identify the computer later:

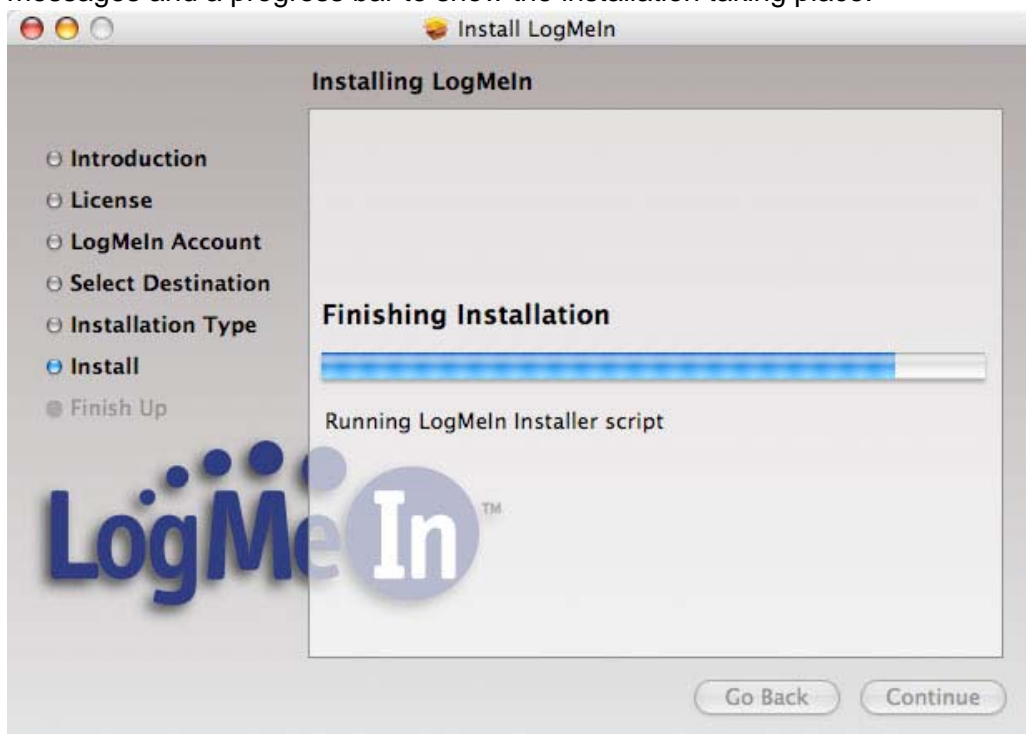

To install or upgrade, you will be required to enter your name and password for your Mac computer (not your LogMeIn account). Enter this information and click "OK" to start the installation:

You will then be prompted for a location for the installation. If a location is not pre-selected, click on the hard drive you wish to install to. Then click "Continue":

If you are upgrading from a previous version of LogMeIn Free for Mac, you will see a screen describing this. Click "Upgrade" to continue to the next step. The screen will then display messages and a progress bar to show the installation taking place:

End Note

If properly installed, the LogMeIn icon will be displayed on top right of your screen:

If you should experience any problems during the set-up process please don't hesitate to contact PLANet Systems Group support by email to: support@planetsg.com, or call 434.336.4357 to reach Vladimir Dukic.

To remotely access your Mac

All you have to do is leave your Mac switched on and make sure it's online, then you can go anywhere in the world and access it from any other computer:

1. Visit www.LogMeIn.com
2. Login with your LogMeIn account details
3. Click on the computer in the list
4. Login with the name and password for your Mac – these details should also be provided to PLANet Systems Group support in order for them to be able to log in to your computer.
5. Click Remote Control
